5th PeDRA Annual Conference
October 26-28, 2017

Hyatt Regency
Aurora-Denver Conference Center
Aurora, CO

Registration opens May 2017

The Pediatric Dermatology Research Alliance (PeDRA) is the research arm of the Society of Pediatric Dermatology. Founded in 2012, PeDRA's mission is to promote and facilitate high quality collaborative clinical, translational, educational, and basic science research in pediatric dermatology.

ABOUT THE CONFERENCE

Our Annual Conference gathers more than 120 clinical, translational, and basic science researchers, government leaders, patient advocacy and industry representatives to discuss study ideas, hear updates on current projects, and learn about best practices and novel approaches in research.

The Conference is also the venue at which research collaborators join forces to form and strategize collaborative pediatric dermatology studies.

2017 CONFERENCE HIGHLIGHTS:

- **Early Investigator Forum:** Sell Your Science! Training on scientific writing and impactful presentations
- **Plenary Sessions:** Consensus Molding in Pediatric Dermatology; Comparative Effectiveness Research; Basic and Translational Research Forum; PeDRA Project Updates, and more!
- **Disease specific sessions** on birthmarks, genetic skin disorders, inflammatory skin disease, neonatal skin, and skin tumors and reactions to cancer therapies
- **A special dinner presentation** by keynote speaker, Melissa Marshall: "Talk Nerdy to Me"

We look forward to seeing you in October for a jam-packed couple of days of education and research collaboration!
