

## Application: PeDRA Studies and Surveys

Please complete the following application for your study or survey to be considered as a PeDRA Study. PeDRA Studies may receive many benefits, including centralized project support, a funding stipend to support statistics and publication, and being featured on the PeDRA website and in other marketing and communication materials. The extent of benefits provided will vary according to the nature and scope of the proposed study. For example, surveys may only require assistance sending a survey to PeDRA members by email, while large multi-center observational or interventional studies may require every service offered by PeDRA. PeDRA will tailor support to help each approved study succeed while accounting for limitations of time and budget.

Applications will be reviewed by the PeDRA Studies Committee on a rolling basis and outcomes shared within approximately 6 weeks. The benefits to be provided by PeDRA will be described in the notification letter.

### Principal (Corresponding) Investigator

Name:

Institution:

Email:

Telephone:

\*\*Studies must have a minimum of 2 Investigators, including the PI. PI must be a PeDRA member but this is not a requirement for Co-I's. Investigators may be at the same institution. \*\*

### Study Type

Retrospective Review

Interventional

Observational

Patient Survey

Practitioner Survey

Pan-PeDRA Study

Other:

### Disease Specific Workgroup (select all that apply)

Birthmarks and Procedural

Inflammatory: Psoriasis

Inflammatory: Atopic Dermatitis

Inflammatory: Connective Tissue

Inflammatory: Hair/Nail/Special Sites

Inflammatory: Acne

Genetic Skin Disorders: Disorders of cornification

Genetic Skin Disorders: Epidermolysis bullosa

Genetic Skin Disorders: Other

Neonatal Skin

Skin Tumors and Reactions to Cancer Therapies (STARC)

Other Research Area:

Please list your Collaborators / Co-Investigators below. If Co-PI, designate (Co-PI) after their name.  
*Attach additional pages as necessary. If you don't know an email address you may leave that field blank.  
However, up to date emails for each investigator will be required before support will be provided.*
